

Blueprint to get Britain out of the EU

We can defeat the EU, and give ourselves multiple methods of achieving victory, if we plan nationally and execute with determination. The EU is a subversive, illegal and extreme organisation; it requires radical action to stop it. We need five branch campaigns by members, and national campaigns by the leadership. Each campaign will have a National Campaign Director. <http://eutruth.org.uk/4campaigns.pdf>

Continuous ground campaigns by members

1. To ensure every MP's surgery is attended by a member who presents the truth about the EU dictatorship, and emphasises its importance by asking the MP to cross the floor. The aim is to awaken the House of Commons to the danger (and the threat to their jobs!) Leave every MP with a copy of <http://eutruth.org.uk/euconst.pdf> and truth.pdf
2. Visit our 19,579 councillors, warn them they and our 48 counties will be illegally abolished by the EU Regionalisation plan, and ask them to do their duty to their electorate by holding an "abolition or not" ballot. The aim is the publicity, and to re-empower local democracy.
3. To visit journalists on local newspapers, warn them they will lose freedom of the press in the EU (EUCJ 274/99, plus euconst.pdf) and ask them to publish the truth.
4. To ask each of our 16,600 members to tell two new people a day: "The EU has the constitution of a dictatorship, and the laws of a police state." If questioned, hand out euconst.pdf. We should aim to reach 10 million people a year.
5. To expose the corruption associated with the EU's handover of power, the subversions from Common Purpose and the Frankfurt School.

National leadership campaigns

Make continuous approaches to national organisations including:

1. MP's in Westminster, who will lose their Parties (EU Constitution I-46-4) then their seats.
2. National newspapers: editors and journalists, who will lose the free press.
3. National football clubs to harness the patriotic fervor of supporters.
4. The Countryside Alliance to organize a long term Westminster demonstration.
5. Leaders of our police and armed forces, point out the illegality of swearing the oath to the EU, and the intent behind our officers being trained in EU countries, and EU officers commanding our units and on the bridges of British ships.
6. Companies: thousands of businesses will be closed by the 111,000 EU regulations.
7. Trade Unionists to prepare the organization of an anti EU General Strike.

The aim is to build multiple defences, any one of which could stop the EU:

1. 19,000 Councillors and their electorates. (ie. not just local elections)
2. The public - Mass demonstrations
3. The armed forces
4. The police
5. Mobilise businesses. (eg. a national refusal to implement EU regulations and taxes.)
6. A general strike against the EU.
7. The last General Election, warning that a vote for the Lib Lab Con is a vote for the EU police state.
