

# Ten EU truths we must tell the public

1. Over 40 years the leaderships of the Conservative, Labour and Lib Dem parties have been taken over by pro-EU Bilderbergers. They implement EU policy, and ignore the wishes of their voters. That's why your vote doesn't make a difference.
2. The six European Union treaties give it the constitution of a dictatorship, and the laws of a police state. Dictatorships lead to oppression and poverty.
3. The Queen has signed all six EU constitutional treaties, which abolished Britain as an independent nation on 1<sup>st</sup> January 2009.
4. The EU is illegal under British law. Five Prime Ministers and the Queen committed six acts of Treason by signing the EU treaties which abolished our nation and replaced it with the EU; they secretly repealed two of the five laws of treason in the 1998 Crime and Disorder Act (s36.3) to escape prosecution.
5. The police state growing around you, and reported on by some national newspapers, is the EU police state. We've been in the EU for 38 years, we are harmonising our laws with the EU, the emerging police state is the result.
6. Political correctness, the undermining of parents, the family and teachers, the teaching of sex and homosexuality to under tens, the promotion of single parent families, snatching 4,500 children a year from good parents for forced adoption, trauma through injustice in our now corrupt British courts etc. etc. is subversion by the EU, its Common Purpose organisation and Freemasonry over the last 38 years, using the 200+ techniques of the German Frankfurt School.
7. The EU will be an economic disaster. We now lose £45 billion a year trading with Europe; before we joined we broke even. The EU's 120,000 regulations cost us £100 billion a year (Better Regulation Commission Annual Report 2005); they will bring us a soviet style command economy and poverty. Our politicians lied to us.
8. If you have voted Conservative, Labour or Lib Dem over the last 38 years **you** have voted **for** the EU police state, and for the abolition of your own party.
9. German Chancellor Angela Merkel forced the Reform or Lisbon Treaty on us (passed by Westminster 21<sup>st</sup> January, 138 majority) which replaced the British Constitution with the EU's on 1<sup>st</sup> January 2009. Westminster is now powerless, defunct and a puppet government. You are ruled by unelected EU dictators, who will soon control the nuclear weapons of what used to be Britain and France.
10. Britain is the fifth largest economy amongst the world's 200 nations. Forget elections and parties, whose leaderships are controlled by the EU. Fight the direct anti EU campaigns on the eutruth website to get Britain back before its too late. We need a General Strike against the EU. Start by visiting your local MP and warn him he will lose his £240,000 salary and expenses when the EU closes Westminster.
